Hydro-Electric Power Commission of Ontario

From Nov. 1st, 1921, to Oct. 31st, 1922

- | | | |
|---|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| 1 | Queenston-Chippawa Development | \$876,798 00 |
| | 1. Electrical Generation | \$376,798 00 |
| | Completion of payments on contracts for five main generators, two service units, Generation's share of switching equipment, reactors, cranes; proportion of station to be constructed this year. | |
| | 2. Hydraulic Construction | 500,000 00 |
| | Completion of payments covering cost of excavation on the canal and Chippawa River, including intake at Chippawa, the Welland River Canal, forebay, screen house, penstocks, power house, hydraulic machinery, right-of-way, miscellaneous, highway and railway bridges, together with necessary equipment for the installation of five turbines of 55,000 H.P. capacity and accessories, in which is included necessary pumps, governors, piping, signal equipment, etc.; also such construction plant as may be necessary to complete the work, materials, labour, cement, stores, etc. | |
| 2 | Niagara System | \$4,046,433 00 |
| | 1. Queenston Transformation | \$1,366,433 00 |
| | Covers completion of payments on contracts for fifteen 15,000 kv-a. transformers, also Transformation's share of 12,000 V. switching, high voltage switching, lightning arresters, insulators, mechanical equipment; also Transformation's proportion of the station to be constructed this year. | |
| | 2. Miscellaneous Station Betterments.. | 50,000 00 |
| | In the operation of a system it is found that from time to time improvements are made, which, owing to the advance of the art, were not available when the stations were constructed. This item will cover such features as improved relay protection, also minor increasing of capacities of feeders, installing more adequate meters, etc. | |

Niagara System,—Continued.

- | | | |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| 3. | 5-110 K.V. Circuits at Queenston ... This covers transmission lines from the generating station roof up to the escarpment over the Screen House to a terminal tower adjacent to the forebay, sufficient for the five units, being installed in the Generating Station. | 15,000 00 |
| 4. | 2-110 K.V. Circuits, Queenston to Niagara Falls Covering completion of payments re above; these circuits will be required to deliver the power from two units at Queenston to the existing transmission system in the neighborhood of Niagara Falls transformer station; if not constructed there will be no outlet for the power from the two units when available. | 10,000 00 |
| 5. | Construction of Operators' Cottages and Community Houses for purposes of operation at Queenston | 150,000 00 |
| 6. | Hamilton Station The City of Hamilton is now served from Dundas Transformer Station, an arrangement which has been satisfactory in the past, but on account of the great increase in demand in Hamilton, it will be essential that a high voltage station be constructed here. It is proposed to locate this station fairly close to the expected gravity of the load in the east end of the city. The power demand in Hamilton for 1922 is estimated at 25,000 horse-power, and for 1924 at 40,000 horse-power, whereas the present capacity of Dundas Station is 15,000 h.p., and serves, in addition to Hamilton, the entire district, including Dundas, Waterdown, Caletonia, Hagersville and Lynden. | 300,000 00 |
| 7. | York Station A temporary station was constructed just west of the City of Toronto for the purpose of feeding New Toronto, Etobicoke Township, etc. This station is now overloaded and will be absolutely inadequate to serve the community when additional power is available. It is expected also that this station may be used to supply power to West Toronto, thereby deferring the erection of additional transformer station within the city. The station proposed will have a capacity of 30,000 h.p. | 350,000 00 |
| 8. | London Station This station, although having sufficient capacity for the present load, will shortly be overloaded, and it is proposed installing a bank of 5,000 kv-a transformers, thereby releasing 2,500 kv-a units for use in a smaller station. | 60,000 00 |

Niagara System.—Continued.

- | | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| 9. Kent Station | 25,000 00 |
| Additional transformer capacity will be required here, the present intention being to install a bank of 2,500 kv-a transformers, thereby releasing 1,250 kv-a units for use elsewhere. | |
| 10. Miscellaneous High Tension Stations | 50,000 00 |
| Betterments to existing stations and construction of new 110,000 volt station at Sarnia. | |
| 11. Distribution Stations | 200,000 00 |
| These are the low voltage stations which are fed from the sixteen main high-voltage stations. A number of these are already overloaded, some of these requiring immediate attention being Hagersville, Lucan, New Hamburg, Milverton, Beachville, Port Stanley, Etobicoke, Mimico, Brigden and Petrolia. It is believed that with unlimited supply of power that the majority of the maller stations will require to have their capacity increased. | |
| 12. 2-110 K.V. Circuits, Queenston to Burlington | 500,000 00 |
| The present 110-volt lines from Niagara Falls, serving the Niagara System, were provided for transmitting in the neighborhood of 200,000 h.p., which is approximately the amount of power they have already been called upon to deliver. With 250,000 more h.p. available at Queenston, several new lines will be required. The two lines proposed will handle 100,000 h.p. and will connect with circuits on existing towers between Dundas and Toronto. To complete this work, \$500,000 will be required next year (1922). | |
| 13. 110-Volt Lines to Sarnia | 20,000 00 |
| 14. Increasing Capacity, 13,000 and 26,000 Volt Lines and Extensions | 200,000 00 |
| A great many of the lines which were built in the early days, owing to the increase of power load, are inadequate. Furthermore, additional lines will be required when more power is available. | |
| 15. Rural | 750,000 00 |
| Expenditure on account of Rural Distribution in Townships already under application. | |

| No. of Vote | No. of Item | | |
|-------------------|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| 113 | 3 | Severn System | 125,000 00 |
| | | 1. Port Severn Power Development ... | 25,000 00 |
| | | 2. Station and Line Betterments | 50,000 00 |
| | | This amount is to cover improvements, also probable extensions to capacity of Barrie and Midland Stations. | |
| | | 3. Rural | 50,000 00 |
| | | Expenditures on account of Rural Distribution in Townships already under application. | |
| | 4 | Eugenia System | 160,000 00 |
| | | 1. Hydraulic Development | 50,000 00 |
| | | Betterments to stations and improvement of hydraulic conditions. | |
| | | 2. Station and Line Extensions and Betterments | 60,000 00 |
| | | To cover possible extensions, station increases possibly to serve Fordwich and Gorrie or line switching structure at Hanover, etc. | |
| | | 3. Rural | 50,000 00 |
| | | Expenditures on account of rural distribution in Townships already under application. | |
| | 5 | Muskoka System | 5,000 00 |
| | | 1. Betterments | 5,000 00 |
| | | To cover improvements to existing lines and stations. | |
| | 6 | Wasdells System | 60,000 00 |
| | | 1. Miscellaneous Betterments .. | 10,000 00 |
| | | To cover contemplated improvements or changes at Wasdells Station, Beaverton, Cannington, Kirkfield, etc. | |
| | | 2. Rural | 50,000 00 |
| | | Expenditures on account of Rural Distribution in Townships already under application. | |
| | 7 | St. Lawrence System | 126,000 00 |
| | | 1. Cornwall Station | 56,000 00 |
| | | This covers estimated expenditures in connection with an extension to Cornwall Station necessitated by a large increase in the load on the St. Lawrence System. The building is being extended and a second bank of transformers will be added. | |
| | | 2. Miscellaneous Betterments | 20,000 00 |
| | | To cover possible improvements and betterments to stations and lines. | |
| | | 3. Rural | 50,000 00 |
| | | Expenditures on account of rural distribution in Townships already under application. | |
| | 8 | Rideau System | 100,000 00 |
| | | 1. Extensions and Betterments | 50,000 00 |
| | | To cover minor extensions and betterments at High Falls and other Stations in the System. | |
| | | 2. Rural | 50,000 00 |
| | | Expenditures on account of rural distribution in Townships already under application. | |

| No. of Vote | No. of Item | | |
|-------------------|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|
| 113 | 9 | Thunder Bay System | 733,968 00 |
| | | 1. Hydraulic Development and Permanent Works | 373,968 00 |
| | | This covers the completion of the present hydraulic installation; permanent constructions for the installation of two 12,500 h.p. turbines, including completion of wing dam, power house, screen house and concrete dam, also temporary dam which will be used as a cofferdam for the construction of the main dam. | |
| | | 2. Nipigon, Electrical | 50,000 00 |
| | | To cover expenditures in connection with installation of two generators and accessories, transformers, 12 and 110 k.v. switching and protective equipment; also station superstructure for same. | |
| | | 3. Red Rock Line | 15,000 00 |
| | | Section of a single circuit 110 k.v. wood pole line from Nipigon Village to main line above in the vicinity of Sprucewood. | |
| | | 4. Nipigon Extension No. 3 Unit..... | 100,000 00 |
| | | Completion of electrical equipment contracts in connection with installation of 3rd unit, together with station superstructure required. | |
| | | 5. Development of Port Arthur Line.. | 150,000 00 |
| | | Third line—Port Arthur. | |
| | | 6. Port Arthur Station | 20,000 00 |
| | | If the load increases at Port Arthur as is expected, a new line and station will be required. | |
| | | 7. Operators' Houses | 25,000 00 |
| | | On account of the isolated location of the development and the necessity of competent workmen for operation and maintenance, it is essential that desirable living conditions be provided. This amount covers contemplated expenditures for housing facilities. Additional expenditures on this account will be necessary as the development grows. | |
| 10 | | Central Ontario System | 385,000 00 |
| | | 1. Hydraulic Development and Permanent Works | 165,000 00 |
| | | Excavation of head-race and tail-race, Ranney Falls Development; including the installation of two 5,000 h.p. turbines, with governors, pumping equipment, piping and other auxiliary equipment and accessories; also completion of substructure of the power-house, and installation of electrical equipment, i.e., two 5,000 kv-a generators, with auxiliary apparatus. | |
| | | 2. Miscellaneous Betterments | 100,000 00 |
| | | Covers completion of work authorized in connection with improved relay protection for the system, etc. | |
